intorec

NDIS Participant Information

IntoRec programs are designed to involve people with a disability in the mainstream community through a range of socially inclusive community based activities.

However, the NDIA is unable to fund the cost of some activities on IntoRec programs because they are not disability specific. These activities are considered an expense that anyone choosing this activity, would have to pay for.

The NDIA will fund recreation supports that are related to the NDIS participant's disability, but not expenses that are ordinarily funded from a person's income. For example, the NDIA may fund a specialised aid or piece of equipment that may assist the person to participate in a recreational activity, but not fund the cost of the activity.

To be able to continue to provide community based activities, IntoRec is asking for NDIS participants to pay the cost of the activity itself. If participants chose not to pay, a similarly themed centre-based activity will be provided.

If you would like more information about this, or the types of supports that can be funded from your young person's NDIS Plan, contact IntoRec on **5823 7041**, your NDIS Plan Manager, or visit www.ndis.gov.au
