

Setting up play

IMAGINATIVE PLAY

Imaginative play involves using simple resources that you can find around the home or outdoors!

Re-use empty drink bottles and fill them up with natural materials available in your back yard or the park!

Children love collecting treasure when they walk with parents, relatives or their peers. These collections can become valuable to them.

Babies also love exploring the play materials available to them as they practice using their imaginations!

Setting up play

IMAGINATIVE PLAY

Use natural resources, as children will love to play and create their own art!
